

Go Fishing at General Butler State Resort Park

General Butler State Park is located in a beautiful setting, overlooking the Ohio River valley. It is home to 30-acre General Butler State Park Lake, known for its largemouth bass, white crappie, bluegill, and channel catfish fishing. Rental boats are available for fishing at the lake from Memorial Day through Labor Day.

Nearby, additional fishing opportunities include the Lock and Dam #1 tailwater on the Kentucky River and the Markland Lock and Dam tailwater on the Ohio River. Channel catfish, blue catfish, sauger, walleye, hybrid striped bass, black bass species, panfish species, and freshwater drum can be caught below these dams. There are several boat ramps available to access these areas.

Visitors to General Butler State Park may stay overnight at Butler Lodge, in one of the 24 cottages, or in the campground.
